SUBJ: **Hexcel Corporation Monitoring Wells**
Lodi Borough, Bergen County, New Jersey
ISRA Case No. 86009

APR 25 1996

Dear Mr. Nowak:

We have been reviewing the Remedial Investigation Workplan and Preliminary Assessment Report submitted in February 1996 by Napp Technologies, Inc. (Napp), the property adjacent to the former Hexcel Corporation (Hexcel) facility. In follow-up to that review, we want to clarify that the seven wells that are reported in the Napp documents are wells that were installed by Hexcel as part of their ISRA case. It is our understanding that Napp has not installed any wells. To help avoid potential confusion of the wells, here is a tabulation of the Hexcel wells that are identified on Napp's figures and the designation that Napp has assigned to each well.

Hexcel Well	Designation in Napp Report
MW-22	MW-6
MW-23	MW-2
MW-24	MW-5
MW-25	MW-7
MW-29	MW-3
MW-30	MW-1
MW-31	MW-4

Please do not hesitate to call if you have any questions.

Sincerely,
GEO ENGINEERING, INC.
